

PCB-Investigator

Product features Basic 11/2013

- ODB++ 7.0 Import/Export
- Gerber274x Import/Export
- Sieb & Mayer Import
- Excellon 1/2 Import
- DXF Export
- IPC356 A Export
- Image (BMP,PNG,JPG) Export
- Image (BMP,PNG,JPG) Layer in background
- Automation Scripting Interface C#, VB.Net
- Advanced Printing
- Component Manager with ASCII CSV, TXT Export
- BOM Export
- Pick & Place Export
- Net Generator for Gerber274x Data
- Panel Viewer
- Symbol Edit
- Area Calculation
- Color Assignment for all features
- Attribute Histogram for all layers
- CAD Net Selection
- Shape Net Selection
- Layer Matrix Manager
- Full Featured Measure Concept
- Full Edit function Add, Remove, Transform
- Mask generation Oversize/Undersize
- Drawn to Polygon
- Auto feature description (Info Layer)
- Fast View Control
- View State Manager including Notes
- Advances Search Options
- Color Group Manager
- Plug-In Manager

License types available:

- PC Node ID
- Dongle ID
- Floating license server

System Requirements:

- Windows XP
- Windows7
- Windows 8 / 8.1
- .Net Framework 4.0
